

AMENDMENTS TO THE SPECIFICATION

Replace the Abstract with the following:

A cook fan to prevent boiling over in a cooking container including a base that allows the cook fan to be placed near the cooking container[;]. A [[a]] fan is attached to the base wherein the fan further comprises a motor and blades attached to the motor[;]. [[and a]] A connector member is attached to the base and the fan, wherein the connector member allows the position of the fan to be adjusted.
